REALAiID Bureau • Solomon Kin, LLC

The 38-Bridge Credential Grid & Robo-Nexus-R

Version 1.0 • June 2026

Executive Summary

The REALAiID **38-Bridge Credential Grid** is the foundational architecture powering sovereign, biologically-anchored digital identity. Combined with **Bio-Sign™ Marrow-Locked Authentication** and the **Robo-Nexus-R** protocols, it creates a unified, cryptographically secure ecosystem for humans, machines, and autonomous agents.

This registry documents every bridge and its role in the **Handshake Knot™** protocol.

The 38-Bridge Credential Grid

Core Identity & Sovereignty Bridges

- **B-01 Auth Root** — Primary sovereign identity anchor
- **B-02 Civic Core** — Government and civic credentialing
- **B-03 HR Liaison** — Employment status synchronization
- **B-04 Civic Ballot** — Verifiable biological voting
- **B-05 Ambient Auth** — Passive environmental authentication
- **B-06 Keystone Plate** — Physical Titanium/E-Ink identity plate
- **B-07 Entra Defense** — Microsoft Entra & Okta kill-switch integration
- **B-08 Physical UAC** — Universal Access Control for hardware
- **B-09 DMV Authority** — ISO 18013-5 mDL inheritance
- **B-10 Fiscal Root** — Visa, Stripe, and financial rail integration

Personal & Legacy Bridges

- **B-11 Pet Likeness** — Cryptographic pet nose-print anchoring
- **B-12 Vital Records** — Birth, marriage, and death records
- **B-13 Medical Root** — Health records and insurance linkage
- **B-14 Property Deeds** — Real estate and asset ownership
- **B-15 Safe Owner** — Secure vault and physical asset control
- **B-16 Satoshi Root** — Cryptocurrency and blockchain anchoring

- **B-17 Professional** — MD/JD and board standing verification
- **B-18 SSA Tokenizer** — Social Security and government benefits

Core Biometric & Security Bridges

- **B-19 Bio-Sign** — Marrow-locked biometric authentication (core protocol)
- **B-20 Escrow Ruler** — Sovereign escrow management
- **B-21 Citadel Escrow** — Institutional-grade secure holding
- **B-22 DTC Travel** — Digital Travel Credential integration
- **B-23 Amex Anchor** — American Express rail anchoring
- **B-24 Credit Authority** — Credit scoring and authority
- **B-25 Insurance** — Insurance policy verification
- **B-26 Mastercard Rail** — Mastercard network integration

Advanced & Industrial Bridges

- **B-27 Academic Root** — Academic credentials and verification
- **B-28 Global Notary** — International notarization
- **B-29 Logistics Sync** — Supply chain and logistics
- **B-30 Auto Anchor** — Vehicle and autonomous system anchoring
- **B-31 All Economy** — Compute currency and machine-to-machine economy
- **B-32 God Sense** — Advanced sensory and oracle integration
- **B-33 Benthic Pulse** — Acoustic defense for submerged infrastructure
- **B-34 Oracle Flux** — Real-time data oracle services
- **B-35 Justice Rail** — Algorithmic justice and dispute resolution
- **B-36 Doge Bridge** — Meme culture and community bridging
- **B-37 Federal Sync** — Federal government system synchronization
- **B-38 Precinct Root** — Local jurisdictional anchoring
- **B-39 Identity Vault** — Master encrypted credential storage

Robo-Nexus-R: Robotic Sovereignty

Industrial Defense // SA-02 Series

Total Verification • IAL2 Marrow-Locked Identity

Robo-Nexus-R Protocols

- **38-R.01 Genesis** — Hardware Root of Trust for embodied AI
- **38-R.02 Coupling** — Secure owner bio-link and proximity handshake
- **38-R.03 Feedback** — Real-time kinetic energy loop verification
- **38-R.04 Integrity** — Immutable logic hashing and node drift protocols
- **38-R.05 Synthesis** — Cross-platform authority validation
- **38-R.06 Sovereignty** — Final state lock for independent M2M transactions

Robo ID Features

- Forensic-grade audit trail for all M2M transactions
- Secure proximity handshake with Wallet-Bio
- Active bridge authorization grid

\$All Compute Economy Integration

The **\$All** token serves as the settlement layer for physical intelligence and autonomous economic agents, enabling:

- Decentralized GPU rendering
- Autonomous cloud orchestration
- AI model marketplaces
- Real-time financial price feeds
